Congratulations to the Turbopower LLC (Turbopower) Quality Management team for the certification of its ISO 9001:2015 and AS9110C Quality Management System.

Performance Review Institute (PRI) Registrar recognizes Turbopower for having met the stringent requirements of the international standards for ISO 9001:2015 and AS9110C, the Company's ongoing commitment to satisfying stakeholders, and its dedication to continual improvement of Turbopower's quality management system.

Turbopower has demonstrated its commitment to world class quality and maintenance practices by implementing and becoming certified to the ISO 9001:2015 and AS9110C standards. "They have joined an elite number of organizations worldwide who have achieved certification to this globally recognized quality standard," said Randy Daugherty, Vice President of the Registrar Program at the Performance Review Institute Registrar. PRI Registrar is proud to partner with Turbopower in this accomplishment and look forward to continued support of the Company's objective of quality and maintenance excellence."

About Turbopower

Turbopower is a provider of maintenance, repair, and overhaul services for gas turbine engines, auxiliary power units and component parts to military and commercial customers worldwide. Turbopower specializes in servicing turboprop engine platforms, including the Rolls-Royce T56 and Pratt & Whitney PT6. The Company holds numerous quality and customer certifications, including ISO 9001:2015, AS9110C, FAA Part 145 repair station and Rolls-Royce Authorized Maintenance Center certification.

Turbopower operates out of a state-of-the-art 100,000 square foot facility with on-site engine test cells based in Opa-Locka, Florida. Turbopower was founded in 1974 and acquired by Battle Investment Group and Capricorn Holdings in June 2021. To find out more, visit Turbopowerllc.com.
